A COCKTAILS STORY

The true creation of a popular cocktail can be traced to the 19th century. One early written reference to the term "cocktail" (as a drink based on spirits with other spirits and additives) can be found in an American magazine, "the balance", published in May 1806.

It stated that a "cocktail" is stimulating liquor, composed of spirits of any kind, sugar, water and bitters.

One of the first modern cocktail to be named and recognised is the "Martini". It can be traced back to an 1862 recipe for the "MARTINEZ". The legendary Harry Craddock, who once mixed drinks in this great room, lists in "The Savoy Cocktail Book" (1930) two different recipes for a Dry Martini.

By 1900, the Martini had become known nationwide and had spread to the other side of Atlantic. This is said to be the beginning of the golden age of cocktails.

Nowadays, the cocktail has taken on many guises as its popularity has flourished. Both literature and film have contributed to the images of wealth and class associated with the cocktail hour.

As you explore the drinks list, please feel free to ask questions and share any tips you may have.

Enjoy you drink...
